Footnotes:

- State expenditures may include local government contributions on CARL, Florida Forever, FCT, and SOR Projects.
- This project is not entirely within SFWMD; the numbers here are that portion of the project within the SFWMD. Expenditures are pro-rated for that portion of the project.
- This project includes the Henscratch Ranch project and is not entirely within SFWMD; except for the Henscratch Ranch portion, the numbers here are that portion of the project within the SFWMD. Expenditures are pro-rated for that portion of the project. The Henscratch Ranch project includes 640 acres owned by the SFWMD that lie outside of the SFWMD boundary. All Henscratch Ranch acres and expenditures are included in the Lake Wales Ridge project numbers.
- Breakdown of Fisheating Creek total acres acquired is 59,910.07 - 9,879.80 fee, 50,030.27 conservation easement.
- The total project size of the WCAs is 867,000 acres, which encompasses WCAs 1,2 and 3. WCA 1 is reported as the State/SFWMD acquired acres under the ARM Loxahatchee National Wildlife Refuge entry.
- Project size, expenditures and acreages reflect acquired lands only and do not include additional active projects. Some FCT funds were used to acquire State/SFWMD projects; those contributions are included under the specific projects.
- Includes acreage of Corbett WMA and portions of Three Lakes and Babcock Webb WMA's within SFWMD; complete state and federal expenditures not available at this time. Corbett and Babcock Webb acquired primarily with federal funds.
- Total acreage acquired for the ARM Loxahatchee NWR is 143,954 acres of which 141,404 acres is owned by the SFWMD and 2,550 acres is owned in fee title by the Refuge. The 141,404 acres owned by the State are leased to USFWS for management. The State owned acres include Water Conservation Area 1.
- State acres are Florida's donation to Federal Government.
- Ownership of acreage in the Dry Tortugas National Park is unresolved.
- Acres and expenditures reported for the Florida Panther NWR also includes parcels acquired in the Cape Romano/Ten Thousand Islands NWR.
- Acres and expenditures reported for the J. N. "Ding" Darling NWR also includes parcels acquired in the Caloosahatchee NWR, Matlacha Pass NWR and Pine Island NWR. Ownership of lands in the Caloosahatchee NWR and Matlacha Pass NWR have never been under private ownership. They have been transferred between federal agencies.
- Acres and expenditures reported for the Lower Florida Keys NWR Complex include islands and upland parcels acquired within the administrative boundaries of the National Key Deer Refuge, Great White Heron NWR and Key West NWR. Submerged lands and waters within these boundaries remain under State ownership. The right to manage certain State submerged lands and waters within Great White Heron NWR and Key West NWR for refuge purposes has been granted to the U.S. Fish and Wildlife Service under a State/Federal Management Agreement.
- 247.34 acres plus 100 acres of the Atlantic Ridge Ecosystem and South Fork of the St. Lucie projects respectively, are currently being managed as part of Halpatickee Park (Martin County).
- This project is no longer on the Florida Forever-BOT list (formerly 66,809 acres). The total federal grant for the East Coast Buffer/Water Preserve Area was \$72,614,143.

Acres acquired include fee simple and less than fee simple acquisitions.

Lands acquired by the State or SFWMD with funds provided in whole or part by the federal government often have conservation easements or restrictive covenants held by the federal government. Federal dollars reported are the total grant amount. All other dollars reported are land costs only.

CERP: These highlighted projects have lands which may be suitable for use by CERP Projects. Natural lands components of individual CERP projects may overlap with projects on the table. The majority of CERP projects are not represented in this table.

CRP: These highlighted projects are Critical Restoration Projects

C&SF: These highlighted projects contain lands which are partially or completely within the Central and Southern Florida Project.
